

## READ ME

Dear COBALT8 owner,

This new V2 bank for the COBALT8 series was designed on a COBALT8X model. However, the presets were also given octave offsets to help owners of the 37 key versions.

**Please ensure the octave offset setting in your MODALapp COBALT8 menu is turned ON.**

Once you have this configured as shown, the presets will always load in the most ideal octave range for performance.

Thanks!

The Team of Modal Electronics
