

READ ME

Dear COBALT8X owner,

This new V2 bank for the COBALT8 series was designed on a COBALT8X model. However, the presets were also given octave offsets to help owners of the 37 key versions. So...

In your MODALapp COBALT8X menu, *please ensure the octave offset is turned OFF.* (this also applies to COBALT8M owners).

Once you have this configured as shown, you will be playing the presets in their originally designed keyboard octave ranges.

Thanks!

The Team of Modal Electronics
